The Name Equality Act of 2007

The Name Equality Act allows one or both parties to a marriage, through the marriage license process, the option to change the **middle and/or last names** by which that party wishes to be known after solemnization of the marriage. Parties to the marriage **may not** change their **first name** on the marriage license.

Each party applying for a marriage license **may** choose to include on their marriage license the **new name** in the spaces provided on the marriage license application without intent to defraud. Changing one's name through this process can only be done at the time the marriage license is issued.

- ❖ Each party to the marriage **may** adopt any of the following **last names**:
 - The current last name of the other spouse.
 - The last name of either spouse given at birth.
 - A name combining into a single last name **all or a segment of the current last name or the last name of either spouse given at birth.**
 - A combination of last names.
- ❖ Each party to the marriage **may** adopt any of the following **middle names**:
 - The current last name of either spouse
 - The last name of either spouse given at birth
 - A combination of the current middle name and the current last name of the person or spouse.
 - A combination of the current middle name and the birth last name of the person or spouse.

Persons who have legal concerns or questions regarding their decision to include/not include a new name on the marriage license should seek legal advice **before** purchasing the marriage license.

The marriage certificate is used by multiple agencies, each of which has different requirements regarding what documents are acceptable to change your name on their records following marriage. It is recommended that you contact these agencies to verify their requirements prior to applying for a marriage license.

Parties to the marriage **may not add or amend** this information after the marriage license has been issued.

The law does not allow someone to completely drop their existing middle name by using the marriage certificate. They must keep their current middle name, add to it, or replace it.
